Would you submit the papers as early as possible to
Her Highness?
Regs

THE PALACE,
MYSORE.

Sir L Hill
MM
20/6

(260)

7-6-14

Note for Mr Kaye Secretary

I send you a paper from the Dewan marked "immediate"
Personally I am of opinion that it is desirable to have the Economic Conference in some shape, as a permanent thing, but in view of present "agitation" the word "organisation" should be admitted so as to leave that free to settle its organisation from time to time.
I have always thought that the Agricultural & Educational sides of this Conference are not nearly as important as the Industrial side

and if I were deciding this
policy of this State I would
contact our activities now
conducted in these two
departments of Education &
Agriculture, especially this
latter.
I see no harm in a general
announcement being made
I believe that the Economic
Conference under proper guidance
will do an immense amount
of good in awaking public
opinion & public interest in
the development of the State
Resources
At the same time I cannot
advise the Governor's rushing
tactics & this means for
making announcements.
It would be quite as easy
to make this announcement
later by a short order. All
the members of the Conference are
educated men who would hear
of short order of this kind.
The Conference itself, being
what it is, a body of educated
men would be quite satisfied if
their resolutions were submitted
to the Governor for his consideration,
and his announcement were
made later on.
The work of the Conference for next
year is hardly likely to be
hindered by a little delay
What do you think?
RHL
I am coming to Miami to-morrow
